

## **GROUP CO-ORDINATORS REPORT 2019**

**Overall a very successful year with few issues.**

**55 groups ran during the Winter with 28 groups running on into the Summer.**

**Whilst most groups covered their costs, we continued our policy of providing small financially subsidies for smaller groups to widen the range of groups available.**

**A few venue issues arose during the year which we were able to resolve, with Carole's help, and this resulted in a few groups moving to new venues.**

**The success of our U3A also presents issues and most of our groups were full and unable to take new members. We urgently need new groups to satisfy our increased membership.**

**If you have a particular interest then the best way to pursue it is to start a group and if you feel that you could run a group then please discuss this with a Committee Member. New groups are always provided with ongoing support.**

**We are still finalising the next winter programme.**

**There will be some new groups and we hope that there will be something of interest in the programme for every member.**

**Finally, I would like to thank the Group Leaders for their support. They get little recognition for the great work that they do and our U3A could not function without them.**
