

Talking Newspapers for the Blind.

For 20 years, Jane Walker has led a group of our U3A members who every six weeks or so meet in her home to read and record the local paper for distribution to blind and partially sighted people in our community.

This provides a very valuable service to our blind community.

The readings are recorded on a cassette player for "Talking Newspapers" who then copy the recordings onto cassettes and distribute them.

"Talking Newspapers" provide the equipment and the newspapers.

Jane is now retiring from this role.

We now need someone to lead this group or the group will cease. If you feel able to offer to facilitate this valuable community service or would like more information, then please contact Stephen by email: **stephenjwright@sky.com**
